## Coach Thames Receives Call To Duty In Navy

Coach Richard "Dick" Thames received his orders last Sunday morning April 1 to report for a physical check-up within seven days. Further orders require him to report to Pensacola Naval Station not later than July 15.

Mr. Thames served aboard a Motor Torpedo boat in Pacific waters during World War II. He saw service at New Guinea, Bougainville, Reboul, the Solomon Islands and the Philippines. Prior to the close of the war, he was sent stateside as an instructor in torpedo fire.

Coach Thames has been at St. Stanislaus since the fall of 1947. He arrived just in time to get acquainted with the tropical hurricane that hit the

coast. He took over in real Navy style in organizing the

boys in groups to clear away debris, and he was a help to the Welfare Department in erecting tents. He drove a truck which was used to spread DDT in the swampy regions in back of Waveland.

For the past session Coach Thames has been head Coach of football, basketball and boxing. His football team this year came up with the best record enjoyed by the Rockchaws in several years. In boxing, his charges have won the State title for the four successive years; he has directed the squad. This year he again won the team trophy and the heavy-weight division. Two of the years, his boys won all trophies offered.

We are sorry to see Coach leave, but sincerely hope that he has all the joys possible in his new work in the Navy.

## A MAN OF ACTION

We consider it a great honor, and we are profoundly grateful and deeply appreciative, of Mayor deLesseps S. Morrison for having conferred upon this writer the title of Honorary Citizen of the City of New Orleans, with the golden key to the City.

We have been an ardent admirer of Mayor Morrison throughout his public life. He was born at New Roads, in one of the country parishes of Louisiana, in January 1912, and received his grammar and high school education in the New Roads School, graduating from there with honors. He then enrolled in Louisiana State University, and worked his way through college, doing odd jobs and as a summer swimming pool lifeguard.

He received his degree in law in 1934 and came to New Orleans where he entered the practice of law with his brother, Jacob Morrison, and Hale Boggs, who now represents the Second Congressional District of Louisiana, in the National House of Representatives. He immediately began to take an active interest in politics; and in 1940 was elected a member of the Louisiana Legislature, where he was a leader for the then Governor, Sam Jones.

In 1941 he was called to active duty as a Lieutenant in the Army; before the cessation of hostilities he had attained the rank of Colonel and had been awarded the Bronze Star for outstanding service during the Normandy invasion and the Legion of Merit for efficiency in reactivating the ports of Cherbourg and Antwerp. He wound up his wartime services as chief of staff to the commanding general of the Bremen area.

In 1944 he was reelected, while stationed in the European Theatre of War, as a member of the Louisiana Legislature and Mrs. Morrison, the former Miss Corinne Waterman, carried on his campaign for reelection during his absence.

He returned to New Orleans in December 1946 at which time the Citizens Independent Committee was searching for a vigorous, aggressive candidate for the Mayoralty of New Orleans to oppose the incumbent Robert S. Maestri. Chet Morrison accepted the nomination; and, frankly, most

of the folks thought his candidacy was a joke. It was not, however, he staged a hot and furious campaign and emerged victorious. We still think that the most surprised man in New Orleans the morning after the election was Morrison. He had accomplished what many thought was impossible—the defeat of a well-entrenched political machine, which had controlled city elections for many, many years.

Action, and not words, became the mayor's motto; and the results attained by his administration is best attested by the improvements made and the industries brought to the Crescent City through his efforts. He has sought city-state cooperation and was quoted as saying: "New Orleans and the other 63 parishes of Louisiana are linked with a common destiny. These economic ties make us interdependent one upon the other. Therefore the welfare and problems of the one are hardly less vital to the other. What benefits New Orleans helps all of Louisiana. Like the ripples on a mill pond, economic progress and prosperity here eddies out to every one of our 63 parishes." And he could have added that the Mississippi Gulf Coast, and particularly Bay St. Louis, Waveland, Clermont Harbor and Lakeshore, are linked with a common destiny to New Orleans; that what benefits New Orleans helps us, and that their economic progress and prosperity eddies out to the Mississippi Gulf Coast. This is not a matter of conjecture, but an absolute fact. This section of the coast has been dependent upon the good will of the people of New Orleans for many years, and today should look forward to the many industries which are being brought to this great city of the south by an aggressive young Mayor and his co-workers.

The location of the Aluminum plant and the plant of the Chrysler Corporation at Michoud are closer to us in time than they are to the people of the uptown section of New Orleans, and of Jefferson Parish. So, every action of the Mayor and his fellow officers also mean much to us.

The most outstanding work, as we see it, of the Morrison administration is the building of playgrounds and the development of his recreation department. He has taken the boys, who were hangers on at street corners and dives, and given them places of recreation. Through this department he has developed a spirit of competition among the youth of his city in clean wholesome sports, the best method to build real manhood.

We could go on and on, describing the public works of this outstanding young man, whose life would do credit to the best of Horatio Alger's stories. He is a typical example of a country boy who made good in the big city. Just think, in the short space of 12 years, from a green, young lawyer seeking to build a practice, to the Mayor's office of the largest city in the South.

Again, Mr. Mayor, may we thank you; and again reiterate that we, too, consider ourselves a suburb of New Orleans, and remind you gently, that what helps your city helps us. We in this section have memories of some of the oldest and outstanding families of your great city who lived in our midst; and today many of your fast and closest friends live part of the time with us. We want this splendid spirit of friendship to continue, with the sincere hope that it shall build bigger and bigger.

Martin and Mrs. Thompson included Mrs. Jones, Mrs. Moran, Mrs. Stanley Strahan, Mrs. June Strahan, Mr. and Mrs. Joe Howze, Mr. and Mrs. E. Harriel and Mr. and Mrs. Emmet Wyman. Captain and Mrs. H. D. Rody arrived Monday evening from Tampa, Florida, to spend a few days with Mr. and Mrs. Arthur Marshall. Captain Rody has just returned from a tour of duty in Korea. After a short visit at the Marshalls, the Rodys will travel to Hazelhurst, Mississippi, where they will visit with Captain Rody's mother. Upon termination of leave, Captain Rody will return to Tampa, Florida, where he has been reassigned to duty at MacDill Field.

Mrs. C. W. Fountain, Jr., and children have been guests of the Fountains and the Oises for the week. C. W. Jr., is attending a series of meetings in New Orleans this week of Druggists and Pharmacists. At the conclusion of the meetings, the Fountains will return to their home in McComb.

On Friday afternoon, March 30, Mrs. June Strahan and Mrs. Louis Turner were joint hostesses at a miscellaneous show, honoring Mrs. Buddy Williams, the former Miss Abby McArthur. The shower was held in the home of Mrs. Turner in Pearlinton. Refreshments of punch and cake were served.

Miss Alma Parker spent the past weekend in Hattiesburg where she visited her sister, Mrs. Frank Davis.

On Monday evening the Trustees of Logtown School and Mr. Harriel met with Mr. Breland in Bay St. Louis to discuss plans, ways and means for erection of a lunchroom at the Logtown school.

Representatives of the 4-H organization were at Logtown School Tuesday and took the 4-H members and others on a short hike and lunch to Pearlinton. A most enjoyable time was had by all who made the trip.

# Hancock Business Institutions Given Official "Go" To Replace Equipment

The Federal Government has acted to help business firms, farmers and institutions of Hancock County to continue in operation so that the nation's existing equipment in the production of goods and services may be maintained at peak efficiency.

According to information received here from Merrill C. Lofton, regional director of the U. S. Department of Commerce in Atlanta, arrangements have been made for warehouses, factories, retail and wholesale establishments, service shops, farms, hospitals, schools, libraries, churches, and Federal, State and local governmental agencies in the county to obtain equipment and supplies for maintenance, repair and operation of their present facilities.

The action was necessary because of the government's program now being administered by the Commerce Department's National Production Authority to conserve for remobilization purposes certain raw materials in short supply. Under this program, portions of such products as steel, copper, aluminum and so forth, of which there is a relative shortage in the country today, are being diverted for use in the manufacture of war materials, resulting in a growing scarcity of such materials for other purposes.

So, in order that equipment now being used in business establishments and institutions of Hancock County in the production of goods and services may not deteriorate to the point of disuse, the National Production Authority has given those in charge of that equipment the right to use priority orders in requesting replacement parts.

A specific procedure for taking care of such requests has been established in Regulation four issued by NPA, and Mr. Lofton suggested that those interested should request further information regarding NPA's action from the nearest field office of the Department of Commerce, which in this state is located at Room 203, Fidelity Building, 426 Yazoo Street, Jackson 2, Mississippi.

# FARMERS ... our FUTURE LOGGERS

Everyone expects the farmer to grow wheat, apples and cabbages. That's what farming has always been. Now Americans are getting the same idea about trees. Trees are a crop, they say.

Already, millions of acres of managed woodlands—from coast to coast—are growing trees as a crop. "Tree farms" they're called by industry. But industry isn't our greatest grower of trees.

Farmers are our greatest owners of forest lands and the future of our wood supply is in the hands of men who already provide much of America's essential produce. They make a business of managing their land for maximum crops and the "cropping" of trees is no mystery to them. Wood, the new all-season crop, means a new source of income for America's farmers.

Hon. J. Cyril Glover, Commissioner  
Gentlemen:

Be it hand herewith, the results of my audit of the Receipts and Disbursements of the City of Bay Saint Louis for the fiscal year ending SEPTEMBER 30th, 1950.

**COMMENTS**  
Funds on deposit were verified by statements from bank, cash in office by actual count and later deposited in bank.  
All revenues as evidenced by receipts were accounted for.  
Funds for the redemption of bonds and coupons are adequate for the bonds to be paid when presented.  
During the year it was not necessary to borrow any money for General Operations. As the School year starts July 1st, it is necessary to borrow money for operation until taxes are collected in December.

Total Operating Revenues Collected amounted to \$212,936.23  
Total Operating expenses amounted to \$172,993.86.

Bonds paid \$22,500.00.  
Old accounts paid \$3,216.43.  
New truck purchased \$1,559.10.  
Total cash on hand September 30th, 1950 amounts to \$38,406.94 compared to cash on hand September 30th, 1949 which was \$25,416.18, shows an increase of \$12,990.76.

As shown on schedule 4, there is an increase to Operating Surplus of \$40,542.37 for the year's operation. To Capital Surplus there is an increase of \$400.00 which represents a Donation for the purchase of the School playground.

Considering the results of operation, it appears that there is efficient management by the Mayor and Commissioners.  
Thanking you for the courtesies extended to me during the course of the audit, I am,

Respectfully  
FRANCIS J. BOPP

There will be six teams in the league this year. The schedule has not been processed as yet, but will be announced at an early date.

Tom Adams, local chairman of the National Red Cross drive, which is now underway, advises that the drive has been extended for one week and anyone wishing to make any donation may do so by getting in touch with one of the drive captains.

### TRINITY GUILD, CIRCLE 1

Trinity Guild, Circle No. 1, Mrs. C. D. Taylor, president, met at the Parish House, Monday, April 2, at 3:00 p. m.

Roll call was answered with verses from the Psalms. After old business was finished, the Guild took up their plans for entertaining the District Auxiliary which will meet at Trinity Church, April 19, 1951. A luncheon is to be served to all members attending the meeting and, weather permitting, it will be an enjoyable affair.

Mrs. William Lamb gave the last of a series of talks upon the Bible—All of which have been interesting and educational to all. This lecture was upon the various prayers found in the Book of Common Prayer—their origins and the many petitions which they embody. Mrs. Lamb has made an exhaustive study of the Bible and the Book of Common Prayer.

However, there was a damper cast upon this occasion, for it was Mrs. Lamb's last appearance as a member of the Guild. She is moving from Pass Christian.

After the meeting adjourned, refreshments were served by the hostesses: Mrs. Edward Bourne, Mrs. Dorothy D. Dennis and Mrs. Lamb.
